

Evaluation of the Updated Site-Specific Risk Assessment for the National Bio- and Agro-Defense Facility in Manhattan Kansas

BOOK DETAILS

- Author : National Research Council
- Pages : 132 Pages
- Publisher : National Academies Press
- Language : English
- ISBN : 0309257824

BOOK SYNOPSIS

Safeguarding U.S. agriculture from foreign animal diseases and protecting our food system require cutting-edge research and diagnostic capabilities. The Department of Homeland Security (DHS) and the U.S. Department of Agriculture (USDA) have embarked on an important mission to replace the aging Plum Island Animal Disease Center (PIADC) with a new facility, the National Bio- and Agro-Defense Facility (NBAF). When operational, this new facility would be the world's fourth biosafety level-4 laboratory capable of large animal research. It would serve as a critical world reference laboratory for identifying emerging and unknown disease threats, and would thus be a critical asset in securing the future health, wealth, and security of the nation. DHS selected Manhattan, Kansas, as the site for the new NBAF after an extensive site-selection process that involved an environmental impact statement. The Government Accountability Office (GAO) raised concerns about DHS's analysis of the potential spread of foot-and-mouth disease virus (FMDv), one of the most serious foreign animal disease threats. Congress directed DHS to conduct a site-specific risk assessment (SSRA) for the NBAF, instructed the National Research Council (NRC) to independently evaluate the SSRA, and prohibited obligation of NBAF construction funds until the NRC review was complete. Congress mandated that DHS revise its SSRA to address shortcomings of the 2010 SSRA, directed the NRC to evaluate the updated SSRA (uSSRA), and again prohibited obligation of construction funds until the completion of the second review. The scope for both of these SSRA reports addressed accidental release of pathogens from the NBAF in Manhattan, Kansas and excluded terrorist acts and malicious threats from its risk assessments. Evaluation of the Updated Site-Specific Risk Assessment for the National Bio- and Agro-Defense Facility in Manhattan, Kansas is the evaluation of the final uSSRA.

EVALUATION OF THE UPDATED SITE-SPECIFIC RISK ASSESSMENT FOR THE NATIONAL BIO- AND AGRO-DEFENSE FACILITY IN MANHATTAN KANSAS

- Are you looking for Ebook Evaluation Of The Updated Site-Specific Risk Assessment For The National Bio- And Agro-Defense Facility In Manhattan Kansas? You will be glad to know that right now Evaluation Of The Updated Site-Specific Risk Assessment For The National Bio- And Agro-Defense Facility In Manhattan Kansas is available on our online library. With our online resources, you can find Applied Numerical Methods With Matlab Solution Manual 3rd Edition or just about any type of ebooks, for any type of product.

Best of all, they are entirely free to find, use and download, so there is no cost or stress at all. Evaluation Of The Updated Site-Specific Risk Assessment For The National Bio- And Agro-Defense Facility In Manhattan Kansas may not make exciting reading, but Applied Numerical Methods With Matlab Solution Manual 3rd Edition is packed with valuable instructions, information and warnings. We also have many ebooks and user guide is also related with Evaluation Of The Updated Site-Specific Risk Assessment For The National Bio- And Agro-Defense Facility In Manhattan Kansas and many other ebooks.

We have made it easy for you to find a PDF Ebooks without any digging. And by having access to our ebooks online or by storing it on your computer, you have convenient answers with Evaluation Of The Updated Site-Specific Risk Assessment For The National Bio- And Agro-Defense Facility In Manhattan Kansas. To get started finding Evaluation Of The Updated Site-Specific Risk Assessment For The National Bio- And Agro-Defense Facility In Manhattan Kansas, you are right to find our website which has a comprehensive collection of manuals listed.
